

EnerHarv2022

PSMA International Energy Harvesting Workshop • April 5–7, 2022 • Raleigh, NC, USA

Dear Energy Harvesting Enthusiast and Developer,

We are delighted to announce that the 2nd EnerHarv international workshop will be hosted by the Center for Advanced Self-Powered Systems of Integrated Sensors and Technologies (ASSIST) at North Carolina State University in Raleigh, North Carolina USA April 5-7th, 2022.

This event will be live and in-person including keynotes and paper, poster and demo presentations from Energy Harvesting technology leaders from both academia and industry. Planned workshop tracks include energy transducers, power management, energy storage and system integration.

If you are interested in presenting a poster or demo, please send an abstract to abstracts@enerharv.com.

Abstracts should be no more than one page in length and include a title, list of authors, presentation description and point of contact.

Details on the final poster and demo format will follow. In the meantime, feel free to contact us with any questions.
